University Teaching Hospital Jean-Minjoz - Besançon – France

Dr. Bahir Edouard Elias occupies a distinguished role as a senior consultant surgeon at the esteemed University Teaching Hospital of Besancon in France.

Within the realm of the French National Medical Council, Dr. Elias stands as a rare and exceptional figure among surgeons. His registration number, 25-3433/RPPS 10002494598, serves as a tangible affirmation of his elevated status. Notably, he holds a dual board specialty certification, encompassing the domains of Plastic, Aesthetic, and Reconstructive surgery, as well as Orthopaedic and Traumatologic surgery. Moreover, his professional portfolio extends to encompass the role of a professor, specializing in the intricacies of Orthopaedic, Traumatologic, Hand, and Microsurgery, within the General Medical Council of Egypt.

The lineage of Dr. Bahir Edouard Elias is an amalgamation of diverse heritages, as he proudly embraces both Egyptian and French nationalities. This distinct backdrop equips him with a commendable proficiency in Arabic, French, and English languages, thereby enabling his far-reaching endeavors in the realm of humanitarian missions spanning across nations. These endeavors encompass not only intricate surgical interventions and illuminating lectures but also encompass a commitment to educational pursuits. A focal point of his efforts resides within the delicate arena of surgical reconstruction, addressing concerns stemming from female genital mutilation (FGM), plastic surgery of the female genitalia, the nuances of sexual aesthetics, and the complexities of traumatic limb surgeries.

It is noteworthy that Dr. Bahir Edouard Elias garners distinction through his possession of a university master's degree in medical and clinical hypnosis, a testament to his holistic and multifaceted approach to the field of medicine. His participation as a valued member of the International Societies for Sexual Medicine underlines the breadth of his expertise, encompassing even the provision of counseling to address psycho-sexual matters. This facet of his practice underscores his unwavering dedication to the holistic well-being and comprehensive health of his patients.
